Prograss Multisport

The ultimate for toughness, performance and appearance

Prograss recognises that with extremes in weather conditions, schools all over Australia are finding it increasingly difficult to maintain their playgrounds and sports fields to a suitable standard all year round. The prograss multisport range can convert a very average play area into a bright and inviting multisports facility.

Prograss Play on, Master and Super have been engineered to outperform major competitors in the key measure of toughness and the unique additives ensure a low abrasiveness, provides shock absorption and vertical deformation as well as ball roll.

Product	Colour	Use	Pile Height	Warranty	Infill
Prograss Standard	Green/Yellow Red/Blue Terracotta	Multipurpose Sports	19mm	7yrs	Sand
Prograss Play On	Varigated Yellow & White Linemarking	Multipurpose Sports General Playground	40mm	7yrs	Rubber/Sand
Prograss Master	Green White Line Marking	Field Sports	50mm	7yrs	Rubber/Sand
Prograss Super	Varigated	Field Sports Recreational Areas	50mm	7yrs	Rubber/Sand

The Prograss range can be installed over existing concrete, asphalt or roadbase surfaces and can incorporate line markings for running tracks, hopscotch, handball, basketball, netball, football and tennis.

100% Australian Made (both yarn and manufacture) all prograss surfaces carry a 7 year warranty, require low maintenance and are a real answer to water restrictions.
