

EcoBowser

GREYWATER IRRIGATION SYSTEM

The water tank that
refills every day...

from your bath, shower and laundry. The more you use
the more you save.

...and **waters your
garden automatically**

with a high efficiency watering system.

EcoBowser

- ✓ **smaller than a rainwater tank**
takes up less than a square metre.
- ✓ can give you **much more water than a rainwater tank** of the same cost
- ✓ PLUS you get a **\$500 Government rebate** on installation!

JustWaterSavers

Add several inlets, easily

You can easily connect several bathrooms and laundries to a single EcoBowser.

This can save you up to 70% on installation.

Simple self contained float switch

No electronics or exposed moving parts means lower cost and greater reliability.

Self cleaning system

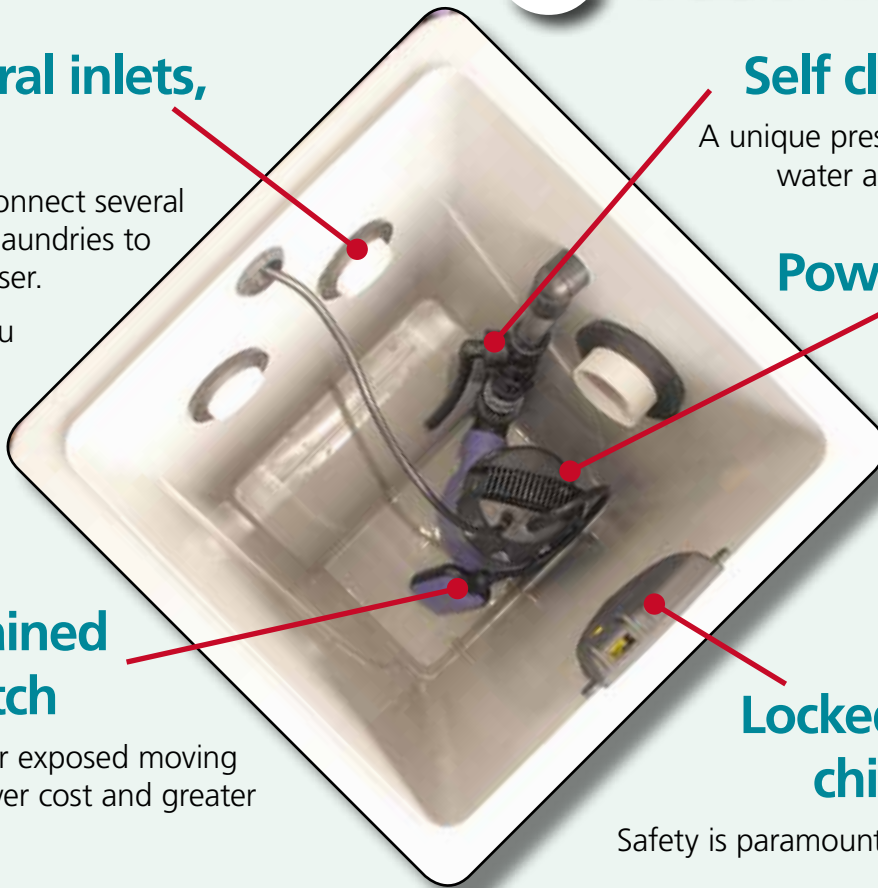

A unique pressure relief tube circulates water and cleans the EcoBowser.

Powerful 550 Watt submersible pump

This pump has been chosen to provide sufficient head pressure to irrigate an average suburban garden.

Locked lid keeps out children and pets

Safety is paramount! The EcoBowser is fitted with a keyed lock.

Waters your garden automatically

A complete watering system hidden under your mulch

Waters your whole garden, front and back, at the same time. **Automatically, every time you shower or wash.**

Specifically designed for under mulch and under turf greywater drip systems.

Supplied with under mulch garden greywater drip line, supply line, connectors, tees, elbows etc.

Special drippers ensure the system is virtually maintenance free.

Do it yourself or professional installation.

Expert advice to help you make the right choice

The possibilities seem endless: greywater systems, water tanks, above ground, below ground, irrigation systems, water re-use in the house or garden irrigation.

Our team of plumbers will analyse your water use and determine how much water is required for your garden, your pool, laundry or toilet.

Then they will advise you on the right system.

Just Water Savers Plumbing is one of the few companies that provides a complete range of advisory and installation services for both greywater and rainwater re-use systems.

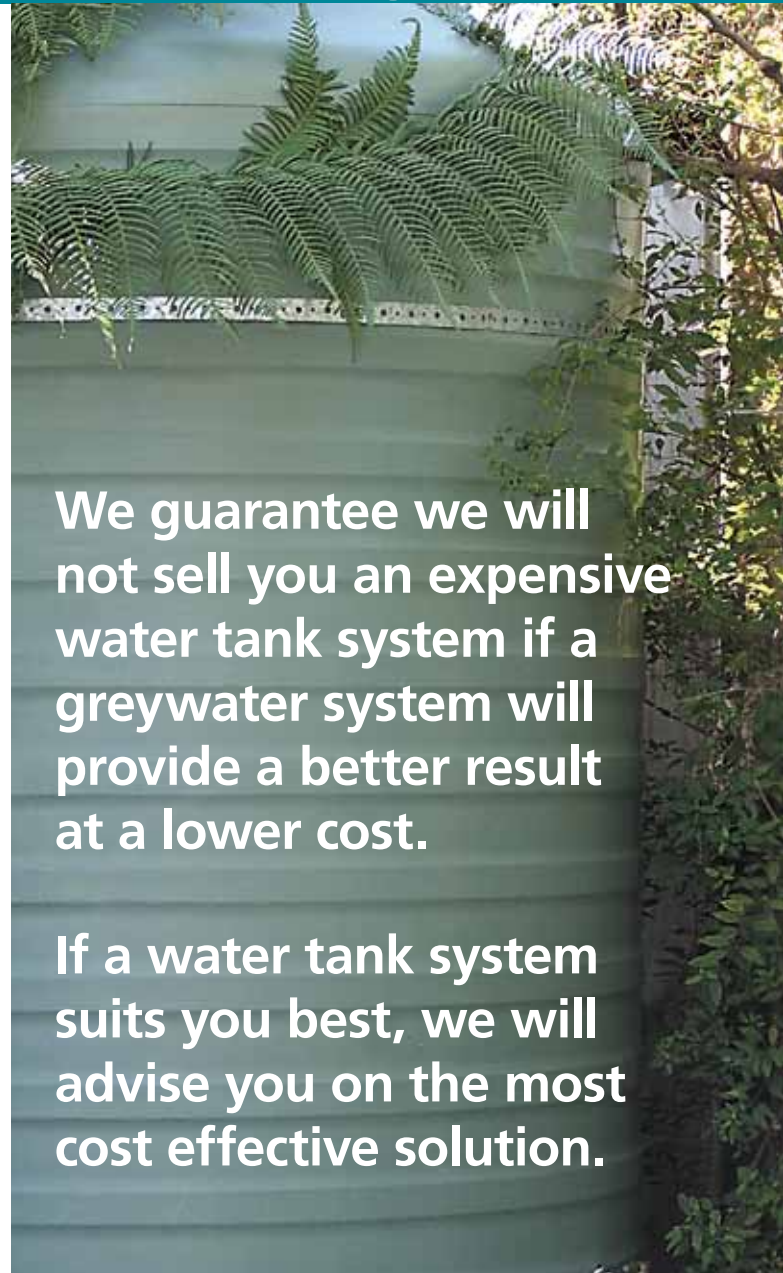

-  **On-site advice at no charge**
-  **The right system for your needs**
-  **Realistic fixed price quotes**

All installations are conducted by trained, licensed plumbers, with project supervision by the Managing Plumber.

For a free on-site consultation and quote, call Just Water Savers Plumbing now.
