

Davey Sump Pumps

Davey Water Products Pty Ltd

The Davey product line boasts an extensive range of sump and drainage pumps. Not only do we have a broad range of electric submersible models, we also have surface mount self priming models.

Davey sump and drainage models are built tough for a variety of applications. You can depend on Davey pumps for the toughest jobs, like:

- Watering gardens with grey water
- Pumping nuisance water from basements or pits
- Removing grey or black water from septic tanks
- Discharging raw sewage from homes, commercial premises or farms
- Removing waste water from process plants, factories, building sites or mines
- Remember to consult local regulations and guidelines

About Davey Water Products Pty Ltd

Davey prides itself on the dependability of its products and its people. Building quality pumps isn't just a business at Davey; it's a responsibility.

For over 70 years Davey has willingly accepted the responsibility for bringing life preserving water to people, livestock and crops in one of the worlds driest continents and around the world.

It's this commitment to building robust, dependable products that has enabled Davey to become a trusted supplier of pumps in over 50 countries.

| Water Rating (WELS) | Water Consumption |
|--------------------------|----------------------|
| Plumber to install No | Not applicable No |

Davey's product skills come from a unique combination of hands-on experience in harsh operating conditions and the latest product development tools. Computer aided design and laser based rapid prototyping systems together with decades of practical experience assures modern, efficient designs in pumps that can take tough treatment.

Davey's manufacturing and quality assurance systems are upgraded on a continuous basis to guarantee consistent, dependable quality products at value for money prices. Davey's commitment to quality in its design and manufacturing has been recognised through accreditation as an ISO 9000- 2001 Quality Endorsed Company. Davey has taken our commitment to sustainability a step further by qualifying for Environmental Management System ISO 14000.

Depend on Davey is a culture within the business and within our worldwide network of dealers and distributors. Our products have to be dependable and so do our people. Water is a critical part of life, not to be taken for granted.

Wherever you are and what ever your water pumping needs, you can Depend on Davey.

Davey won the 2008 Premiers Sustainability Award for Large Business for our efforts in reducing our environmental footprint.
