About Bosch

Bosch supports the use of green technology and the efficient use of resources. This guiding principle underpins all our work in all sectors, from environment-sensitive production methods to researching new, energy-efficient technologies.

Did you know Bosch was amongst the first manufacturers to register a dishwasher to meet the new WELS scheme? Choosing water and energy

All content supplied is written by the listing company independent of savewater!®. Whilst savewater!® has attempted to ensure that all the above information is accurate, it cannot accept responsibility for any loss you may suffer by relying on it.

efficient appliances not only saves money, it helps you contribute to the conservation of environmental resources.

Intelligently designed for both you and the planet, the new range of washing machines and dishwashers combine cutting-edge technology with up to 4-Star Energy and 4.5-Star Water efficiency rating for maximum performance.

With a range of smart water and energy saving features, the improved performance means saving without the sacrifice.
