

Smart Grass "Sport" 65ml

Smartgrass

COMMERCIAL, PLAYGROUND, SPORTSFIELD AND RESIDENTIAL SURFACES

'SmartGrass' is a synthetic grass designed to replicate the look and feel of regular grass. Manufactured with superior materials, its lush look and soft feel make SmartGrass the leader in its field. The product specifications were created by a company with more than 20 years experience in the landscaping industry. In response to Australia's relentless drought conditions and the ongoing maintenance requirements associated with regular turf. The product has become increasingly popular in both the residential and commercial sectors and has now been specified for use on several up-and-coming prestigious projects.
