

DRIP EZE™

4 mm and 13 mm IN-LINE DRIP TUBE

FOR RESIDENTIAL AND
COMMERCIAL LANDSCAPES

Irritrol®

Drip Eze™ extruded in-line drip tube is a precise, low flow irrigation product suited for a wide range of landscape applications, such as high density planting areas and intricately shaped landscape beds.

Drip Eze™ applies water to the plants at a slow consistent rate, reducing the risk of run-off and water wastage. Particularly suited to areas like median strip garden beds where overspray cannot be tolerated.

Enviro-Drip™ is for use with non-potable treated water.
